Aigoli

More than a supplier —
we build lasting partnerships.

www.aigolipro.com

Welcome to **Aigoli**

Your Vision
Engineered to Perfection

A Message to Our Dear Partners,

At Aigoli (Suzhou) Mechanical & Electrical Co., Ltd., our mission is simple: to engineer the world's most reliable indoor and outdoor gardening solutions. We believe that precision manufacturing is the foundation of every great brand, and for over 10 years, we have been dedicated to perfecting that craft.

As your specialized **OEM** and **ODM** partner, we provide more than just production capacity. We offer a bridge between your vision and a finished product that exceeds market expectations. From the first prototype to high-volume manufacturing, every step is governed by our rigorous sense of quality control and a commitment to international standards.

We don't just see ourselves as a supplier; we are an extension of your team. Our goal is to build **long-term, transparent, and prosperous global partnerships** that drive innovation in the gardening industry.

Thank you for being part of this journey with us. We look forward to growing together.

Sincerely,

The Aigoli Team
Precision Manufacturing. Global Partnership.

Who We Are

We are a high-precision manufacturer specializing in Indoor, Outdoor, and Gardening solutions. For over 10 years, we have empowered global innovators by transforming ambitious concepts into market-leading products.

What We Do

As your dedicated OEM and ODM partner, we provide a seamless, end-to-end manufacturing lifecycle:

Concept & Prototyping:

Turning sketches into functional, high-precision models.

High-Volume Production:

Scalable manufacturing tailored to your growth.

Sustainability:

Responsible production processes that meet rigorous international standards.

Quality Assurance:

Precision engineering backed by a decade of technical expertise.

Garbage Bin Storage Sheds With Raised Planter Bed

Product Models-Knock-Down Design

AG-GBWGSPL1D
1242x690x800mm(H*W*D)

AG-GBWGSPL2D
1242x1340x800 mm(H*W*D)

AG-GBWGSPL3D
1242x2000x800 mm(H*W*D)

Dual-Function & KD(knock-down)Design

- Perfect Combination of Garbage Can Shed Enclosure and Planters
- Hassle-free installation
- Knock-Down (KD) design saving shipment cost

Built to Last

- Constructed from robust galvanized stainless steel and finished with a protective powder surface treatment
- Highly resistant to weather, rust, and dust

Effortless Access & Security

- Front-opening doors provide full access for bin removal
- Crucial Ventilation design preventing odor buildup

Stability & Safety

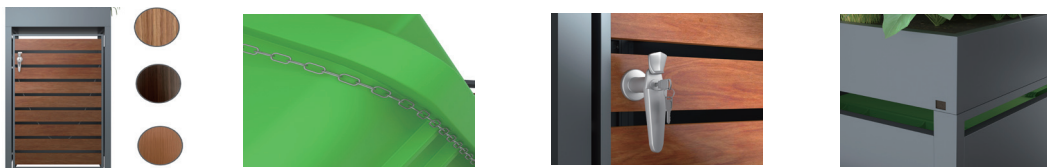

- Include anti-dumping chains and anchor kit for enhanced wind stability
- Comes with the lockable doors to safeguard your belongings from theft and prevent animals from entering.

Capacity Options

Available in various door configurations (Single, Double, Triple, Quadruple) and sizes, accommodating both 240L and 120L bins.

Color and Style Designs

- Modern Anthracite Grey or Black: A sleek, minimalist look that complements contemporary architecture.
- Premium Wood-Grain Effect: Features wood-look slats for a warm, natural aesthetic without the maintenance of real timber.

AG-PBG01
1255x520x385mm(H*W*D)

AG-PBGW02
1255x520x385mm(H*W*D)

Advantages

Unrivaled Durability

Constructed from heavy-duty galvanized steel with a premium powder coating treatment, ensuring maximum resilience.

Total Weather Resistance

Designed to be waterproof, anti-corrosion, and anti-rust, protecting your parcels in all weather conditions.

Superior Security

Features a robust locking mechanism for anti-theft protection, ensuring your deliveries are always safe.

Cost-Effective Shipping

The clever KD (Knock-Down) part design reduces packaging size and cuts shipment costs.

Easy Setup & Low Maintenance

- Features hassle-free assembly so you can quickly install your outdoor parcel box.
- Built with high-quality materials that require very low maintenance over the product's long lifespan.

Chic Design

The modern aesthetic ensures a chic design well matching to the building, with an optional wood grain finish for more choice.

Complete Delivery Solution

Functions as a robust parcel letter box, managing both mail and packages securely

Fully Customizable Color & Style

Fully adjustable colors and styles to suit any preference

770x1500x750mm(H*W*D)

AG-R5050H50
500x500x500mm(H*W*D)

Advantages

Lifetime Durability (Galvanized Stainless Steel)

Engineered with a Galvanized Steel core providing exceptional strength and inherent resistance against rust and corrosion. An added layer of protection that seals the metal, offering superior defense against harsh weather (UV rays, heavy rain, snow) and ensuring the color remains vibrant for years.

Ergonomic Design for Planting Comfort

Designed to reduce the need for excessive bending and kneeling, making planting, weeding, and harvesting significantly easier and more comfortable.

Versatile and Adaptable for Any Space

Available in a variety of sizes and featuring a modular connection system that allows you to link multiple beds together.

Versatile Planting Zones: Perfect for growing herbs, vegetables, flowers, and ornamental plants, allowing you to create customized microclimates and soil mixes for different types of flora.

Superior Soil and Water Management

- Open-Bottom Base Design: promoting natural drainage and preventing soil from becoming waterlogged, which is critical for preventing root rot.
- Smooth Water Flow: Ensures excess water can easily exit, supporting healthy soil aeration and plant growth.

Easy Setup & Low Maintenance

- Knock Down (KD) Design and hassle-free assembly
- Built with high-quality materials that require very low maintenance over the product's long lifespan.

Architectural Customization

- Available with options for custom color powder coatings and various sizes to perfectly match and enhance your home's exterior and architectural vision
- Flexible Drainage Options: Includes options with pre-drilled drainage holes for outdoor use or without for indoor/deck environments.

Outdoor Litter Receptacles

Elevate your curb appeal with waste solutions that merge superior durability with sophisticated design.

Our outdoor receptacles are engineered to withstand the elements while ensuring your grounds remain clean, hygienic, and inviting for visitors year-round.

Outdoor Litter Receptacles

This Outdoor Litter Receptacle is manufactured from premium galvanized steel, offering superior durability, corrosion resistance, and long-lasting performance in demanding outdoor environments. Designed with a modern dual-compartment structure, it supports efficient waste sorting while maintaining a clean and organized public space.

Featuring clearly marked General Waste and Recycling sections, this receptacle encourages responsible disposal behavior and promotes environmental sustainability. The integrated top-mounted ashtray provides a safe and convenient solution for cigarette waste, helping to reduce fire hazards and ground litter.

Its smooth powder-coated surface ensures easy cleaning and low maintenance, while the robust steel construction delivers excellent stability and vandal resistance. The contemporary design allows it to blend seamlessly into both urban and commercial landscapes.

Benches

The Modern Choice

Versatile seating for modern living. Find the perfect balance of durability and design.

Benches

This modern Outdoor Bench is crafted with a sturdy 201 stainless steel frame and durable plastic wood slabs, combining industrial strength with a natural wood-like appearance. Built for long-term outdoor use, the bench offers excellent resistance to rust, corrosion, weathering, and everyday wear, making it ideal for high-traffic public and commercial environments.

Designed with ergonomics in mind, the seat and backrest provide comfortable support for extended sitting, while the breathable slatted structure allows for quick drainage and ventilation after rain. The smooth, low-maintenance plastic wood surface is easy to clean, fade-resistant, and splinter-free, ensuring both comfort and safety for users.

With its sleek and contemporary design, this bench seamlessly blends into urban streetscapes, parks, and modern architectural settings while maintaining strong structural stability and durability.
